## Student's Satisfaction Survey

### Report for Academic Year 2022 – 2023

Apart from the feedbacks obtained from students on the teaching learning process & institute infrastructure the institute also conducts an annual satisfaction survey with a primary focus on the Teaching, Learning and Evaluation. This feedback will significantly showcase the actual quality of the teaching learning process which in turn will help identify the strengths of the institute's teaching and also identify the possible improvements.

Student Satisfaction Survey (SSS) is also one of the mandatory criteria set by National Assessment & Accreditation Council (NAAC). This needs to be available on the institute's website and the same needs to be submitted in the Annual Quality Assurance Report (AQAR) towards National Assessment & Accreditation Council (NAAC).

The process of this survey involved 21 questions which are similar to the questions framed by National Assessment & Accreditation Council (NAAC). Twenty questions were based on a point scale of 0 to 4 and one question was open ended for students to express their suggestions. The questionnaire was framed in Google Forms and the link was shared with all the students of the institute. An online format was chosen since the students were physically not present in the institute and that technology helps reach all students no matter their location. A total of 283 students responded to the survey.

The received responses was analyzed in an excel workbook for calculation and representation purposes. The final score is based on the average score of the twenty questions which is out of a maximum of 4. The score is based on a sample calculation as given below for each question.

Total respondents 284		Score	Total Score	Average Score
No of students marked 4 points	200	200 X 4 = 800	800 + 180 + 36 + 6 + 0 = 1022	1022 / 284 = 3.60
No of students marked 3 points	60	60 X 3 = 180		
No of students marked 2 points	18	18 X 2 = 36		
No of students marked 1 point	6	6 X 1 = 6		
No of students marked 0 point	0	0

The teaching learning sessions were being conducted through an online platform due to lockdown being enforced through the initial half of academic year. The institute also prepared videos based on practical sessions for students better understanding. Students were also asked to prepare certain practical based videos to get a little hands-on experience. The offline sessions were initiated in the second half of the semester in phased manner.

### Key findings:
